What can we learn from one another to better address the needs of **every generation** — children, young adults, families, seniors, and veterans? Join the conversation at the Fall Sharing Conference, presented by the Interfaith and Community Resource Network, and help shape stronger support for our whole community.

Event Highlights

- ◆ **Who makes up our community?** Children, young adults, families, seniors, and veterans — explore the population picture together.
- ◆ **What services exist, and where?** Learn what's available and how to access the services each generation needs.
- ◆ **What's missing?** Identify the gaps in services for each generation.
- ◆ **Speak up, speak out.** Share your own experiences and needs with the group.

Free Health Screenings

Take advantage of complimentary eye testing and glucose testing, available on-site during the conference.
